

LOVE X 100

LOVE100

LOVE X 100

LOVE100

Love100 is an Inspiration.

An exceptional diamond cut designed by Gabi Tolowsky, inspired by the desire to capture the beauty and brightness of the stars and constellations above. A unique 100 facet diamond that celebrates the magnificence of the celestial bodies above and the greatness of nature below.

Love x 100 is a Message.

We want to share the message that we can love in many ways - in 100 ways - and that love can be everywhere. Love for your work, the love for beauty, the love for the earth and what humanity created, from incredible technology to the world of the arts. The love for other people, for the heroes that risk their lives to save others without even knowing them. The love for optimism and for hope, the love of reassurance given and the belief that the hard times will pass.

Love x 100 is a Constellation.

An ideal constellation where all the stars that exist within it are the feelings and qualities that make humans so special and unique. Goodness, Resilience, Courage, Strength, Grace, Generosity, Energy, Patience, Optimism, Altruism, Kindness. These actions of love have the ability to shine and illuminate people exactly like stars. For this reason these qualities form our “Constellation of Love”. A constellation of positivity and joy to inspire people to believe in a brilliant future. Something to remind us all of the wonderful energies that humanity can always find within itself. A “Constellation of Love” that can guide us through the adventure of life and make us stronger and better than we thought possible.

Love x 100 is You.

The Talents we portray in these pages are real people. Real girls and real guys selected on the street representing some of the everyday lives seen in our world. Students, Musicians, Doctors, Lawyers, Activists, Creatives, Designers, Travellers, Dreamers. Each one of the faces you will meet in these pages is a true story, a name, a family, a special human being that offers to us their authenticity and purity. Every portrait is a human journey - A journey like yours, like all of ours.

LOVE X My Galaxy

Alessandra

Alessandra loves art and acting. She studied scenography and won a scholarship to become a fashion designer at a prestigious design faculty in Milan.

My Galaxy

Giulia

Giulia loves photography. She works at a talent agency looking for personality and passion in the faces on the street. She loves the thrill of discovering people with a story to tell.

My Galaxy

Greta

Greta is interested in the world of communication and marketing and is currently studying at the Bocconi Faculty of Economics in Milan. Born on Lake Como, she loves discovering new landscapes.

LOVE *X* Vortex

Alissia

Alissia is a passionate athlete who plays competitive volleyball. Every day she dedicates time to her training as well as her language studies, ready for her upcoming travels to experience new cultures.

Vortex

Giulia

Giulia is a lawyer, she works tirelessly to defend the love of the family.
She believes if you live with passion you will have encounters that
enrich your life.

Vortex

Ottavia

Ottavia is a doctor of cardiology, taking great care of us so that our hearts continue to beat. She loves helping people who are passionate about new scientific research and will soon move to Germany to learn new medical techniques.

Vortex

Bianca

Bianca is a junior talent scout, she loves the world of communication. She searches for new faces for fashion, seeking those with personality, and passion in their lives.

Vortex

Lin Lin

Lin Lin is a fashion designer who studied at Marangoni. She adores fashion and discovering new universes of style. Dedicated to the arts, she also loves exploring Italy with her boyfriend, particularly the world's most romantic city, Venice.

Vortex

Carola

Carola is a talented jeweller and goldsmith. Each day she is creating something new using precious metals, gems and diamonds. She loves art and sculpture and is always looking for new discoveries and inspirations to influence her work.

Vortex

Madina

Madina loves music, she is a skilled orchestral conductor but wants to explore the world further through art. She currently studies fashion design in Milan at the prestigious Marangoni.

Vortex

Gaia

Gaia embraces her greek origins. She loves the Mediterranean and is a musician and songwriter. A title of one of her songs is “Diamond” a song about about both the strength and fragility of love.

LOVE X Twist

Bianca

Bianca has a passion for the legal system and is studying to become a magistrate of justice. She has a great interest in people's stories, to grasp their fragility and strength. She believes strongly in accessible justice for all.

Twist

Giulia

Giulia lives in Milan and studies Fashion Design in a famous faculty of the city, the Marangoni Institute. She loves her parents very much who are two experts in oriental antiques.

Twist

Arianna

Arianna thinks that the true heroes of our everyday life are the ones that take care of others. She loves to spend her time with her family and her cat Lucilla.

LOVE X Cosmic

Valeria

Valeria is a fashion buyer, she loves design and is curious and passionate about discovering new talents, stylists and designers. Her star is her boyfriend and her parents are her heroes.

Cosmic

Valeria

Valeria is a fashion buyer, she loves design and is curious and passionate about discovering new talents, stylists and designers. Her star is her boyfriend and her parents are her heroes.

LOVE X You are my Star

Tatiana

Tatiana is passionate about indie music, she admires activists and people who try to make the difference. She believes that love should be a combination of sharing and attraction.

You are my Star

Greta

Greta is interested in the world of communication and marketing and is currently studying at the Bocconi Faculty of Economics in Milan. Born on Lake Como, she loves discovering new landscapes.

LOVE X Diamond in a Diamond

Eleonora

Eleonora loves communication, working and finding solutions for companies. She loves the thrill of meeting new people and finding new life experiences.

LOVE X Shine

Costanza

Costanza adores museums and the discovery of new art and artists.
She loves her sister and considers her to be her best friend.
The sea is the place where she escapes from everything.

Shine

Carola

Carola is a talented jeweller and goldsmith. Each day she is creating something new using precious metals, gems and diamonds. She loves art and sculpture and is always looking for new discoveries and inspirations to influence her work.

LOVE X Jewelry

Love100 Jewellery was born to celebrate the beautiful creation of the diamond master, Gabi Tolkowsky. His extraordinary 100 facet diamond achieves a brilliance to rival the stars. The Collections are inspired by the perpetual movement of the celestial bodies and by the mysterious and fascinating lights of the stars above. Kineticism is the secret behind many of our iconic pieces, the changing shapes and fluid movements make the jewels joyful and rich with tactile sensations. The diamond at the centre of the collections is constantly celebrated through creativity as the heart of the design or explored as a conceptual form discovered in the glistening shapes and surfaces of the jewellery. Harmony between parts is essential in the **Love100** creative process. Line and form build fluid shapes in harmony, to offer in each jewel of the collection a unique and complete design experience. Quality, creativity, and accuracy abound, yet happiness, love, passion and inclusiveness are the true values found within the **Love100** Universe. Enjoy it with us.

GABI X Diamond

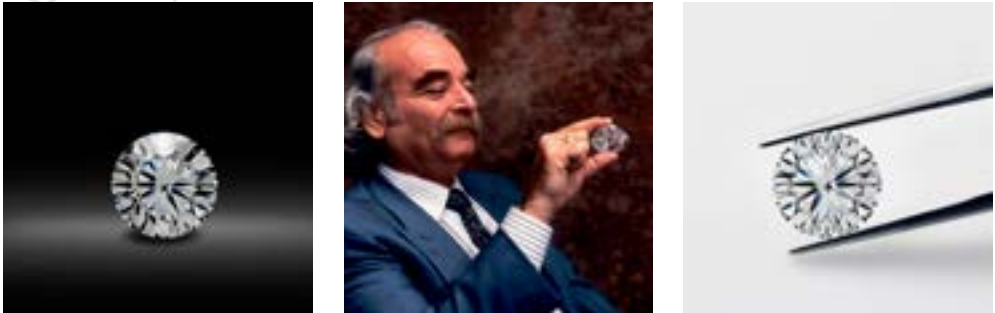

The Love 100 Diamond is the creation of Gabi Tolowsky, the most celebrated diamond cutter in the world today. Responsible for crafting some of the most famous and precious diamonds that have ever been discovered. His understanding of the relationship between proportions and symmetry in the cut of a diamond and how light interacts with them to illuminate and accentuate its beauty is second-to-none. The Love 100 is Gabi Tolowsky's signature creation. An exceptional modified cut, that delivers a brilliance that rivals the stars.

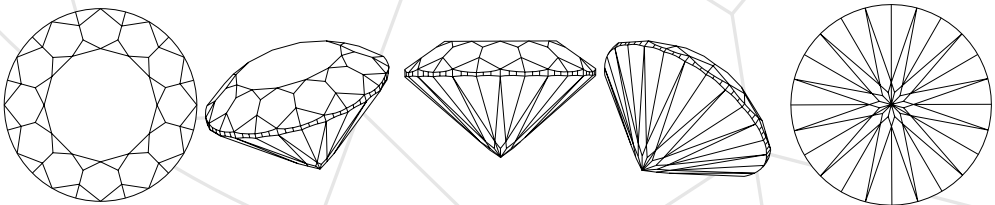

LORETTA X Design

Love 100 design is led by Loretta Baiocchi, A Creative Director and Brand Architect designer behind some of the most Iconic Collections in world jewellery today. Her design vision interprets the true meaning of the Love 100 and fully explores each element of the constellation. Her inspiration for each piece begins with the vision of Gabi Tolowsky and from this starting point she further explores the Constellation of Love narrative to create Iconic Collections and industry leading designs. Each collections is about discovery and self expression through beautifully designed jewellery.

Exceptional Design

The **Love 100** Diamond is Gabi Tolikowsky's signature creation. From the hand that cut two of the largest diamonds in the world comes an exceptional modified cut, delivering a brilliance that rivals the stars. It is the culmination of a life's work dedicated to diamonds. The Love 100 is designed with 100 facets - standard round diamonds feature only 57. The addition of an extra 43 facets has been precisely calculated to create additional light dispersion from the crown (top) of the diamond. The specific angle and number of the 100 facets means that the light is refracted and split at an increased rate, creating greater illumination within the diamond with up to 25% more brilliancy than standard round diamonds. Every Love 100 diamond is hand polished by the most experienced craftsmen whose lifetime of knowledge at the polishing wheel allows them to hone your diamond to perfection. The master cutter carefully converts each rough stone to the perfect final polished diamond using sight, touch and even the sound of the diamond at the polishing wheel to guide them. Each stage of the cut is carefully quality checked and rechecked using advanced technology to ensure the most beautiful diamond possible is being crafted.

The result is a diamond that consistently shines brighter and more beautifully than standard diamond cuts.

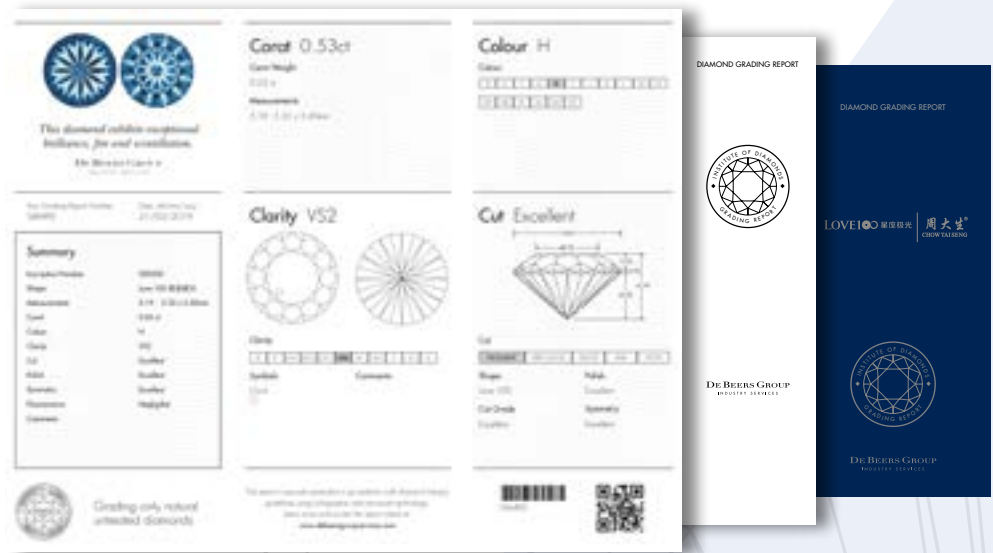

The Hearts and Arrows Effect

The precision nature of the **Love 100** cut reveals an extraordinary effect when viewed through a hearts and arrows viewer. 12 perfect arrows and 12 perfect hearts are clearly seen through the crown and pavilion of your diamond, the true indication of cutting excellence. Beyond this, a further exceptional feature is revealed. The constellation effect. This beautiful phenomena - A secret star - occurs due to the absolute precision of the facet arrangement. By bringing together the two greatest symbols of love and romance - the Diamond and the Star - the Love 100 represents a cut beyond compare.

Diamond Assurance

Every **Love 100** diamond is independently graded by the De Beers Institute of Diamonds and is accompanied by its own individual grading report outlining the key features and natural origin of your diamond. The 4Cs (Cut, Colour, Clarity and Carat) are the universal parameters of diamond evaluation. Of these, it is the Cut that is the most important factor in determining the diamond's beauty, as an exquisitely cut diamond will ensure the maximum light return possible. This is where the skill and expertise of the master craftsman combines with nature to release the fire and brilliance within the diamond, creating an object of superlative beauty.

The precision design and exact arrangement of each of the 100 facets has been calculated to increase the refraction rate for superior light performance and is particularly noted in the Diamond Grading Report.

This diamond exhibits exceptional brilliance, fire and scintillation.

DE BEERS GROUP
INDUSTRY SERVICES

Responsible Sourcing

We firmly believe that it is our responsibility to protect our most precious natural resources. Responsible sourcing is at the heart of our work and we ensure that every one of our diamonds is obtained from sustainable and regulated mines and all Love 100 diamonds are Kimberly Process adherent. We actively support the development of both social and ethical mining practices globally and are committed to the further advancement of sustainable and responsible mining practices for the future.
